For  
the seat

- **50% of the energy** needed for production comes from renewable sources of our installation.
- The commitment to reduce the energy consumption is implemented through the renewal of the equipment with **energy-efficient machineries for metalworks.**

- Products are designed, developed and **made to last for decades.**
- The out-of-scale resistance of items represents the first step toward **a real reduction of product's environmental footprint.**

# RECYCLING & CONTROL OF CHEMICALS EMISSIONS

E 1

CARB2

NO  
FORMALDEHYDE

Compliant

→ **We respect European and US limits** in regards of formaldehyde emissions. All plywood used in our products are compliant with **E1, CARB2** and **EPA** regulations.

→ Metal waste from production process, paper, cartons and plastic materials **are all handled by recycling procedures.**

# SUSTAINABLE WOOD-CHAIN

2021

- 2021, Torre started the process to **certify the environmental impact** of its items.
- The study is the evaluation of potential environmental impacts **throughout the entire life cycle** of a product (“from cradle to grave”).
- Timber of all wooden components is **coming from forestry practiced in an environmentally responsible** and socially beneficial manner.
