**A SUSTAINABLE
WAY OF LIVING
FOR EVERYONE**

**THAT'S WHAT WE ALL
WANT, RIGHT?**

Every year around 139,000 tonnes* of clothes go to landfills per country in Europe and only less than 0,8% of all materials are truly recycled.**

**139.000 TONNES
ANNUALLY**

That's just an average number in Europe in textile waste per year. Now take in mind that 1 pair of jeans costs about 34kg* of CO2 to produce...**
